

## **Alessandro Chiabrera Award for Excellence in Bioelectromagnetics**

The Council of the European Bioelectromagnetics Association  
awards the 2019 Alessandro Chiabrera Award to

**Dr. Arno Thielens**

For his excellent work in the field of radio-frequency exposure assessment in real-life conditions, his outstanding contributions to reduce substantially the inaccuracies of electromagnetic field measurements.

The EBEA Council believes that his research will continue to provide important contributions to the knowledge of electromagnetic exposure of people in real-life conditions.
